Re: Comments on Draft Recommendations of Joint Outreach Team

The Harquahala Valley Power District ("the District") hereby responds to the Notice of Availability of draft recommendations of Western/DOE Joint Outreach Team (77 FR 224, November 20, 2012). The District is a political subdivision of the State of Arizona which purchases federal preference power and associated transmission services for resale to retail customers in Arizona.

The District would like to state its support for the comments submitted by the Colorado River Energy Distributors Association ("CREDA") and Irrigation and Electrical Districts Association ("IEDA") in response to the above referenced Notice. The District respectfully requests the Western/DOE Joint Outreach Team to consider these comments in its formulation of final recommendations.

Thank you for the opportunity to provide comments.

Sincerely,

Jeff Woner
