

# Infrared Thermography

Hands-On Training for Utility Systems and Customer Service Applications

**August 8, 2012**

**8:00 a.m. to 5:30 p.m.**

**United Power  
500 Cooperative Way, Civic Room  
Brighton, Colo.**

## **Learn how IR cameras can help you to:**

- Improve distribution system safety and efficiency
- Perform more effective home energy audits
- Help C&I customers identify potential problems and save money

Get hands-on experience with different makes, models and software. Sharpen your skills with training geared to YOUR needs.

## **Who should attend?**

- Member services professionals
- Key account representatives
- Energy program planners
- Maintenance technicians

## **Agenda includes:**

- Demonstrations by IR experts from FLIR, Fluke and Western Area Power Administration
- Case study by Poudre Valley Rural Electric Association
- Hands-on field training
- Question and answer period
