

HUALAPAI VALLEY SOLAR PROJECT

WE WELCOME YOUR COMMENTS

**Kingman High School Auditorium
4182 Bank Street, Kingman, Arizona 86409
Thursday, October 1, 6-8pm**

Western Area Power Administration (Western) will host a public scoping meeting October 1, 2009 to share information about the proposed Hualapai Valley Solar Project. Learn about the National Environmental Policy Act (NEPA) process, meet project team members, ask questions, and provide comments at the meeting.

Hualapai Valley Solar LLC proposes to build a 340-MW solar power facility approximately 27 miles north of Kingman and 20 miles east of US 93. The solar power facility would be located on private land. A new transmission tie-line and access roads are proposed across Federal land, managed by the Bureau of Land Management.

Your comments will help define issues and alternatives for evaluation in the environmental impact statement Western is preparing for the proposed project. The public scoping comment period closes **October 23, 2009**.

For more information or to provide comments visit the project website at: www.wapa.gov/transmission/hvs.htm
